A GREAT article by Revolver Guy.com,about RUGER GP 100 in 10mm..... Click HERE

It has been our experience that the S&W 646 revolver performs better with

NICKEL plated brass for loading and unloading, Steel or polymer moon clips..Chamber check all cases.

Chuck Howick of Virginia has tested out the RIMZ 646 in his, Wiley Clapp, RUGER GP 100 in 10 mm and reported that the RIMZ 646 works flawlessly in the RUGER GP 100 in 10mm.

Mark from Jacksonville, Florida also gave the RIMZ 646 extensive testing in his RUGER GP 100 for 10 mm and the RIMZ 646 worked great.

Ben in West Virginia tested the RIMZ 646 in his Ruger GP 100 Match Champion in 10mm

I ran 150 rounds through the GP100 today using the RIMZ 646 moon clips with no issues! This is the first time since purchasing this revolver that I could do that.

Incredible! Thanks AZSOUTHPAW

Jim is talking about using 40 S&W in his Ruger GP 100 with the RIMZ 646 moon clip

Denny,
I finally got out to the range. Good news! With Federal primers I had no misfires. I fired 60 rounds of 180 gr reloads and six Federal American Eagle 180gr jacketed. I also fired 18 rds of 10mm reloads with Fed. primers with no problems.
Jim

Note from Denny: The RUGER GP 100 in 10 mm might be sensitive to S&W 40 manufactures, in other words, the gun might fire fine on some brands and not others.
